to noon**

\$35 donation
(\$28 for Old Pueblo
Archaeology Center
and Pueblo Grande
Museum Auxiliary
members;
50% off for persons
who have taken this
class previously)

Some projectile points
made by workshop instructor Sam Greenleaf

Location:

**Old Pueblo
Archaeology Center
2201 W. 44th St.
Tucson**

Donation is due 10
days after reservation
request or by 5 p.m.
Thursday May 13,
whichever is earlier*

In Old Pueblo's three-hour workshop, expert flintknapper Sam Greenleaf demonstrates and teaches how to make arrowheads and spear points out of obsidian and other stones. He gives insights into how ancient peoples made and used stone tools, and provides hands-on experience in making and recognizing stone artifacts.

All necessary equipment is provided. Participation is limited to six persons age 16 or older unless a parent or guardian also enrolls.

Register for the workshop for hands-on instruction in how to produce a flaked stone tool by using a hammerstone to break a desired size of flake off of a core of rock, thinning and shaping the flake into a projectile point or other stone implement using an antler tool, and finishing the artifact using pressure flaking.

This activity is designed to help modern people understand how early peoples made and used tools, and is not intended to train people how to make crafts for sale.

To register contact Old Pueblo Archaeology Center at [520-798-1201](tel:520-798-1201) or info@oldpueblo.org.

Checks, cash, and Visa, MasterCard, Discover, and American Express cards are accepted. Please do not send cash in the mail. Donations for reservations made less than five days before a class date are nonrefundable.

Donations will be refunded for missed sessions only if Old Pueblo Archaeology Center cancels the workshop or receives at least 24 hours advance notice of absence from a registrant.

All participants are asked to wear masks and practice physical distancing during the workshop to avoid spreading disease.
